PROFESSIONAL SUMMARY

Computer Science graduate with expertise in Artificial Intelligence, Machine Learning, Full-Stack Development, and Data Analytics. Proficient in Python, JavaScript, SQL, Django, FastAPI, React.js, Node.js, and modern database technologies including MySQL, PostgreSQL, and MongoDB. Experienced in developing scalable web applications, RESTful APIs, JWT based authentication systems, and end-to-end machine learning solutions. Skilled in data analysis, exploratory data analysis (EDA), statistical analysis, data visualization, and dashboard development using Pandas, NumPy, Power BI, Matplotlib, and Seaborn. Strong problem-solving and analytical abilities demonstrated through real-world projects in fraud detection, predictive modeling, and business intelligence. Passionate about leveraging data and technology to build impactful solutions while collaborating effectively in Agile development environments.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Django, FastAPI, React.js, Node.js, Express.js

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, Microsoft Excel

Machine Learning & Data Science: Scikit-learn, TensorFlow, Random Forest, SVM, Logistic Regression, Decision Trees, Naive Bayes, Feature Engineering, Model Evaluation, Hyperparameter Tuning

Data Analytics: Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Statistical Analysis, Hypothesis Testing, Dashboard Development, Business Intelligence (BI), Data Storytelling

APIs & Authentication: REST APIs, FastAPI Routing, JWT Authentication, Postman

Tools & Practices: Git, VS Code, Jupyter Notebook, Google Colab, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Agile/Scrum

PROJECT EXPERIENCE

Task & Productivity Tracker | *Django, SQLite*, | [GitHub](#)

- Architected a full-stack productivity ecosystem using Django, featuring JWT-driven secure role-based access control (RBAC) and data-driven user performance metrics.
- Optimized relational SQLite queries to monitor multi-user completion rates and integrated an automated Excel reporting engine for seamless data exports.

Cryptocurrency Price Prediction | *Python, Machine Learning* | [GitHub](#) | [Live link](#)

- Developed and optimized predictive ML models (Random Forest, SVM) for cryptocurrency trends, improving predictive accuracy by 12% through hyperparameter tuning and k-fold cross-validation. <https://crypto-price-prediction-girishg0wda.streamlit.app/>
- Evaluated performance metrics (Precision, Recall, F1-Score) and built visual analytics dashboards using Pandas and Matplotlib to map behavioral trends and model confusion matrices.
- Built a complete ML pipeline including preprocessing, feature engineering, model evaluation, and Streamlit-based deployment using Python, Pandas, Scikit-learn, and GitHub.

Money Laundering Detection System | *Python, Machine Learning, Scikit-Learn, Streamlit* | [GitHub](#) | [Live link](#)

- Built and deployed an end-to-end Anti-Money Laundering (AML) detection system using Python, Scikit-Learn, and Streamlit, training a Random Forest model on 6.3M+ financial transactions with engineered behavioral risk features such as balance differences and high-value transaction indicators.

- Developed a production-style modular ML pipeline and interactive Streamlit dashboard for real-time transaction risk assessment, achieving 97.1% precision, 81.7% recall, 88.7% F1-score, and 99.75% ROC-AUC on a highly imbalanced fraud detection dataset.

E-Commerce Sales Analytics Dashboard | *Python, SQL, Power BI, Pandas, SQLite* | [GitHub](#)

- Processed and analyzed 9,994 retail sales transactions using Python, Pandas, and SQL to identify revenue trends, customer behavior, and product performance.
- Built a multi-page Power BI dashboard featuring Executive Summary, Sales Analytics, Customer Segmentation, and Forecasting reports.
- Performed RFM-based customer segmentation to identify high-value customer groups and business opportunities.
- Developed forecasting, profitability, regional sales, and product performance visualizations to support data-driven decision making.

Clinic Front Desk Management System | *MERN Stack* | [GitHub](#)

- Architected an appointment scheduling and queue management system using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT-based role-specific admin and staff dashboards; leveraged MongoDB for scalable patient data storage.

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern | *Okulr Techminds, onsite*

04/2025 to 08/2025

- Built and deployed RESTful APIs using Node.js and Express.js integrated with MongoDB, supporting dynamic data-driven features.
- Developed interactive React.js front-end components and collaborated in an Agile/Scrum team, contributing to sprint planning and deliverables.
- Implemented JWT authentication flows and reduced integration bugs by 30% through systematic API testing with Postman.

Data Science Intern | *Unified Mentor, remote*

01/2025 to 04/2025

- Designed and deployed supervised ML classification models for predictive analytics, driving data cleaning and advanced feature engineering pipelines using NumPy and Pandas.
- Translated complex datasets into actionable insights, creating clear Matplotlib visualizations to communicate predictive trends to stakeholders.

Full Stack Web Development Intern | *Dotch Endeavours Pvt. Ltd., remote*

08/2024 to 12/2024

- Collaborated on cross-functional web development tasks, contributing directly to full-stack frontend and backend application logic.

Python Programming Intern | *Institutional Internship Program, remote*

05/2023 to 08/2023

- Upskilled technically by earning a specialized Python (AI/ML) certification to integrate data-driven features into active development workflows.

EDUCATION

Don Bosco Institute of Technology, Bengaluru, 2025

CGPA: 7.35

B.E., Computer Science & Engineering (AI & ML)

CERTIFICATIONS

- Agile Project Management – HP LIFE
- Python Programming – Infosys Springboard
- Python (AI/ML) Internship – Dotch Endeavours Pvt. Ltd.
